***Allowable Subject Matter***

Claims 1-3, 5-8 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art does not teach in combination with the other limitation of the independent claim a method for adjusting a rotary machine by press-fitting the adjustable member to the housing and the rotary body, pressing the rotary body through the adjustable member to a reference position at which the movable amount of the rotary body becomes zero; and adjusting the movable amount of the rotary body in the direction of the rotary axis to the predetermined amount by varying a position of the adjustable member by pressfitting the exposed portion of the rotary body against the adjustable member in a direction in which the movement restricting part and the contacting part move away from each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
